Opening

Monday, 10 April 2023 | 4.30 PM

Dwiky KA, Freedom of Living Things, Equaland, 2023, Acrylic and charcoal on canvas, 120 x 90 cm

STEM Projects presents *STEM Show 4*, a group exhibition presenting 8 Indonesian-based young artists: Anjastama HP, Azizi Al Majid, Bebe Wahyu, Dabi Arnasa, Dapott, Dennys Fadhil, Dwiky KA, Mahaputra Vito.

STEM Show is a series of exhibitions initiated by STEM Projects with the main purpose of discovering and nurturing emerging and under-represented artists. With an artist-focused approach at our core, STEM Show was intended to encourage them to explore their practices and create new works. Through this program, we hope to stimulate the artists' development and provide a place where their works can get appreciation from the public.

In this group exhibition, the artists expressed various things, including; **Anjastama HP** talks about human self-image through wayang figures, which sometimes look good and sometimes look bad; **Azizi Al Majid**, encourages the viewer to consider the complex and multifaceted relationship between contemporary art and its audience; **Dapott** brings faded childhood memories; **Dennys Fadhil** reminds that everything that looks bright and colorful acts as the way it looks; while **Mahaputra Vito** composes the things that come to his mind through his works so that they do not disappear right away.

STEM places an emphasis on the need for accessibility and engagement between art and people, where we provide the environment that urges the interaction between both. This exhibition is held as a place for artists to introduce their works to wider audiences.

STEM Projects

STEM Projects is established with the main purpose of discovering and nurturing emerging and under-represented artists.

With an artist-focused approach at our core, we intend to create a platform that enables artists to gain the necessary level of support in the early stage of their careers, while encouraging them to explore their practices and create new works.

Through our programs and activities, STEM places an emphasis on the need for accessibility and engagement between art and people, where we provide the environment that urges the interaction between both; a place for artists to introduce their works to wider audiences.

STEM Show

STEM Show is a series of exhibitions where the participating artists are given the opportunity, support, and freedom to showcase their own artistic practice. Through this program, we hope to stimulate the artists' development and provide a place where their works can get appreciation from the public.
